Virtual **Hybrid Cloud & IT 2020**

Assessing the hybrid cloud & IT environment: interoperability, management and operations

Online | Thursday, October 8, 2020 | Start: 12:00pm ET / 9:00 PT

PUBLIC SECTOR NETWORK

Certified B Corporation

AGENDA OVERVIEW

Cloud computing continues to grow in importance in the public sector.

Developing and implementing cloud-based solutions, as well as data center consolidation and other technology efficiencies, is a continually evolving journey.

Government is increasingly on the look out for these improvements to existing technologies, configurations, service and deployment models and creating the appropriate mix of cloud services to better meet requirements.

The Public Sector Network's Hybrid Cloud & IT Virtual Event will delve into government success stories and provide a roadmap of how those responsible for implementing cloud-based technologies went about evaluating the options, selecting and rolling out the best platform, and leveraging it to reap the most benefit for their agency.

REASONS TO ATTEND

- Share in the experience of your peers and gain insight into where other Department's are headed
- Deploy hybrid cloud with minimal disruption to operations
- Move from low to high maturity and realize the full benefits of a hybrid cloud environment
- Further develop your cloud strategy and advancement of capabilities and understand how to best leverage your platform for maximum benefit

SPONSORS

SILVER

TANIUM

WHO SHOULD ATTEND

- CIO/CTO IT Director
- Enterprise Architecture
- ICT Procurement
- Contract Management
- IT Workforce Strategy
- IT Infrastructure
- IT Operations
- ICT Applications
- Vendor Management | Cloud

SPEAKERS

PHILIPPE JOHNSTON
CIO
Transport Canada

SCOTT LEVAC
Director, Cloud Oversight
