

Virtual Hybrid IT and Cloud

Enhancing interoperability, management operations through ICT

Online → Wednesday, 13 October 2021 | 11:00am AEDT

[CLICK HERE TO REGISTER](#)

Agenda Overview

Hybrid IT and cloud have become critical in the digital transformation of government. When implemented effectively, Hybrid IT and cloud services present many opportunities, including flexibility, improved collaboration and scalability.

While cloud adoption is accelerating, there are still barriers preventing government from capitalising on the hybrid IT economy. Legacy systems, compliance issues and the lack of existing roadmaps present persistent roadblocks to utilising the benefits of hybrid IT and cloud technology.

Public Sector Network's **Hybrid IT and Cloud Virtual Event** will equip attendees with ideas and strategies on how to increase organisational agility, streamline administrative processes and deliver citizen-centred services through cloud adoption.

Who Attends?

Chiefs/Directors/Heads/Managers of:

IT | Digital | Cloud | Cyber Strategy
Data & Analytics | Enterprise Architecture | Service Delivery

Speakers

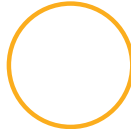

Prerna Kekre
Manager Analytics & Data Science,
iCare NSW

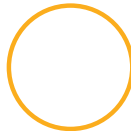

Christopher Mace
Chief Information Officer,
Public Service Commission (NSW)

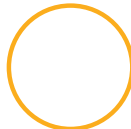

Aron Hausler
Strategic Projects Manager,
Department for Innovation and Skills (SA)
