

Virtual: Cyber Security Risk Management

Form a collaborative network to better safeguard your organization

Online | Tuesday, April 13, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda Overview

Cyber-attacks have become increasingly more sophisticated in the way attack vectors are being put together, posing greater risk to information security, critical infrastructure systems and national safety.

While risk management is nothing new, our approach should be constantly evolving – as the threats themselves are. A good risk management program should establish clear communications and situational awareness about risks. Ideally, risk management helps identify risks early and implements appropriate mitigations to prevent incidents or attenuate their impact.

Achieving this in an ever-evolving environment though is a complex task, so to help you on your journey we've put together Public Sector Network's Cyber Security Risk Management virtual event. The event will bring together cyber risk management experts from across the public sector to help you effectively identify and mitigate threats.

Speakers

PAUL GIRARD
Chief Information Officer
Treasury Board of Canada

ZELLA PHILLIPS
Senior Counsel – IT & Corporate Law
Regional Municipality of York

STEWART HAYES
Cyber Program Director
Department of Environment, Land,
Water & Planning, Victoria State
Government (Australia)

JOHN ROBERTS
Chief Information Security Officer
Ontario Public Service

GORDIE MAH
Chief Information Security Officer
University of Alberta

DAVID MASSON
Director of Enterprise Security
Darktrace

WENCY LUM
Associate Vice-President University
Systems & Chief Information Officer
University of Victoria

LIZ MCKEOWN
Faculty
Canada School of Public Service

NATHAN WENZLER
Chief Security Strategist
Tenable

PETER SMETNY
Systems Engineering Director
Fortinet

Reasons to Attend

Learn best practice approaches to respond to the evolving threat landscape and uplift resilience

Gain insight into the latest technologies, trends and skills transforming cyber risk management

Explore real world case studies and top tips from across jurisdictions and all levels of government

Who Should Attend

Chief/Director/Heads of:

- Cyber Security
- Technology Officers
- IT Security
- Risk & Risk Management
- Information Management
- Networks Architects
- Infrastructure Security

Virtual: Risk Management

Form a collaborative network to better safeguard your organization

Online | Tuesday, April 13, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda

12.00pm ET 9.00am PT	Welcome from PSN		
12.05pm ET 9.05am PT	Chair Opening Wency Lum , Associate Vice-President University Systems & Chief Information Officer, University of Victoria
