

Virtual: Securing Your Networks

Embedding Security Rules and Controls to Protect Your Network Architecture

Online | Tuesday, March 9, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda Overview

With the move to cloud services, software-defined networks, IoT devices and the proliferation of remote working, the game has changed in terms of defining an organization's network. To keep up security strategies must change too.

Current network security architecture doesn't offer the visibility required for modern-day networks, much less guard against threats roaming within them, and with attack vectors becoming more intelligent, developing and integrating network security rules and controls to protect your organization's network architecture and information is crucial.

Understanding recommended controls and best practice methods for IT system security in a complex and ever-evolving environment is a challenge however. To help overcome this challenge, and provide you with the guidance needed to implement secure network controls we've put together Public Sector Network's Securing Your Networks virtual event which brings together security professionals from all levels of government to share case studies and practical tips.

Speakers

FRED THIELE
Chief Information Security Officer
Transport NSW

SANDY FADALE
Senior Cyber Security Analyst
**Finance and Treasury Board,
Government of New Brunswick**

STEPHANE PHARAND
Cloud Security Architect
Shared Services Canada

VERN CROWLEY
Cyber Crime Investigation Team
Ontario Provincial Police

DAVID MASSON
Director of Enterprise Security
Darktrace

BRUNO GERMAIN
Virtual Cloud Networking Consulting SE
VMware

JIM RICHBERG
Field CISO for Federal & Public Sector
Fortinet

Reasons to Attend

Explore best practice approaches to protect your data and infrastructure against network security breaches.

Learn how to overcome top security challenges through top tips and lessons learned from public sector cyber security leaders

Gain insight into the latest trends, processes and procedures transforming network security

Assess threat detection solutions and emerging technologies to optimize your network security capability

Who Should Attend

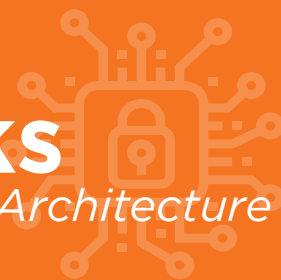

Chiefs/Directors/Heads/Managers of:

- Cyber Security
- IT Security | Cloud Security
- Network Security | Information Management
- Information Security Management
- Technology Risk Management

Virtual: Securing Your Networks

Embedding Security Rules and Controls to Protect Your Network Architecture

Online | Tuesday, March 9, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda

12.00pm ET 9.00am PT	Welcome from PSN
12.05pm ET 9.05am PT	Chair Opening: Threat Actor, Threat Landscape, 5G and AI David Masson , Director of Enterprise Security, Darktrace
12.20pm ET 9.20am PT	Government Keynote: Developing and Implementing a Vulnerability Identification Management Process Sandy Fadale , Senior Cyber Security Analyst, Finance and Treasury Board, Government of New Brunswick
12.35pm ET 9.35am PT	Partner Session: Mitre Att&ck: Evaluate Your Security Posture and Where To Invest Bruno Germain , Virtual Cloud Networking Consulting SE, VMware
12.50pm ET 9.50am PT	Case Study: Developing an Incident Response Plan, in Concert with Implementing Controls Vern Crowley , Cyber Crime Investigation Team, Ontario Provincial Police
1:05pm ET 10:05am PT	Partner Session: The Immediate vs Long-Term Impact of COVID-19 on Networking and Cybersecurity - A Canadian C-Level Perspective. Jim Richberg , Field CISO for Federal & Public Sector, Fortinet
1:20pm ET 10:20am PT	Government Case Study: Cloud- It Takes Time to Get It Right Fred Thiele , Chief Information Security Officer, Transport NSW

1.35pm ET 10.35am PT	Break
1.40pm ET 10.40am PT	Panel Session: Security By Design – Building Next Generation Network Security Stephane Pharand , Cloud Security Architect, Shared Services Canada Vern Crowley , Cyber Crime Investigation Team, Ontario Provincial Police Sandy Fadale , Senior Cyber Security Analyst, Finance and Treasury Board, Government of New Brunswick
2.10pm ET 11.10am PT	Closing Remarks from the Chair David Masson , Director of Enterprise Security, Darktrace
2.25pm ET 11.25am PT	PSN Closing Remarks & Session Adjourns
