

Virtual Migrating to the Cloud

Sharing successful strategies for moving digital assets with confidence

Online | Thursday, February 11, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda Overview

Cloud migration has become a central pillar of government strategies to modernize IT systems. Embracing the cloud has helped governments to reduce IT costs, increase agility and scalability and deliver better value to customers and stakeholders. With the Government of Canada adopting a Cloud-First Strategy, the forecast is calling for a cloud-based future across Canada's public sector.

Public Sector Network's **Migrating to the Cloud Virtual Event** will delve into government success stories and provide a roadmap of how those responsible for cloud migration went about evaluating the options, selecting the best platform and rolling it out. Hear about ways to maximize the benefits of a cloud-based infrastructure and overcome common challenges through case studies and interactive panels. Whether you are just getting started or well under way in your migration, there will no shortage of practical takeaways shared by your peers.

Speakers

KOFI ARTHIABAH
Director, Infrastructure / Operations
TC Cloud Centre of Excellence
IT Service Management
Transport Canada

BRIAN MERRICK
Director, Cloud Programs
U.S. Department of State

PAUL FAUCHER
Director, Cloud Strategy, Digital Strategy
Immigration, Refugees & Citizenship Canada

JEREMY BROOKS
Professor, School of Applied Technology
Humber Institute of Technology and Advanced Learning

TYLER MOULE
Cloud Architecture Advice and Guidance
Canadian Centre for Cyber Security

LES BENITO
Director of Operations, Cloud Computing Program Office
Defense Information System Agency

SHANNON MCCALLUM
Ottawa Federal, Solution Engineer
VMware

Reasons to Attend

Further develop your cloud strategy and understand how to leverage your platform for maximum benefit

Create a migration timeline that minimizes disruption to your organization

Learn how to build capacity and ensure cloud readiness with an A-Z migration plan

Join public sector leaders looking to drive organizational agility, productivity and collaboration

Build a cloud security framework and architecture to protect your data and other digital assets

Who Should Attend

- Chief Information Officers (CIO)
- Chief Information Security Officers (CISO)
- Chief Technology Officers (CTO)
- Chief Digital Officers (CDO)
- Enterprise architects
- Cloud strategy and services
- IT Infrastructure and development
- Digital transformation and services

Virtual Migrating to the Cloud

Sharing successful strategies for moving digital assets with confidence

Online | Thursday, February 11, 2021 | Start: 12:00pm ET / 9:00am PT

Agenda

12.00pm ET 9.00am PT	PSN Welcome and Opening	1.20pm ET 10.20am PT	Break
12.05pm ET 9.05am PT	Chair Opening: Cloud Migration Due Diligence - Looking at Ways to Mitigate Risk and Ensure Readiness Jeremy Brooks, Professor, School of Applied Technology Humber Institute of Technology and Advanced Learning	1.25pm ET 10.25am PT	Panel Discussion: Overcoming Common Migration Challenge <ul style="list-style-type: none"> • Creating a checklist for success: key factors and action items to help you prepare • Leveraging experimentation to learn from successes and failures • Mitigating risks and disruptions, including downtime during the migration, data protection and loss recovery Paul Faucher, Director, Cloud Strategy, Digital Strategy, Immigration, Refugees and Citizenship Canada Jeremy Brooks, Professor, School of Applied Technology Humber Institute of Technology and Advanced Learning Les Benito, Director of Operations, Cloud Computing Program Office, Defense Information System Agency
