

Virtual Cyber Security for Critical Infrastructure

Uplifting the Cyber Security Resilience of Critical Infrastructure

Online → Wednesday, 31 March 2021 | 09:00am AEDT

Agenda Overview

The push towards digitalisation in the modern world sees IT and OT converging, with isolated critical infrastructure - as it was before - no longer existing. This growing interconnectivity, while essential for operational efficiency, opens up highly interdependent networks to unauthorised cyber attacks.

While cyber attacks are nothing new, they have become increasingly more sophisticated in the way attack vectors are being put together; posing greater risk to the critical infrastructure (CI) systems and services that are essential to society and the economy: power and water distribution pipelines, national defence systems, transport networks and communications grids.

This in turn has prompted governments around the world to implement new laws and regulations that demand stronger industrial network security.

To help you understand the changing security and infrastructure landscape we've put together Public Sector Network's Cyber Security for Critical Infrastructure virtual event which brings together local and international CI security experts to help you uplift the cyber security resilience of your critical infrastructure.

Chair

Robert Di Pietro
Cyber Security & Digital Trust,
PwC

Speakers

Tobias Feakin
Ambassador for Cyber Affairs and Critical Technology,
Department of Foreign Affairs & Trade

Stewart Hayes
Cyber Security Director,
Department of Environment, Land, Water and Planning

Vijay Narayan
CISO,
Environment Protection Authority Victoria

Karl Hanmore
First Assistant Director-General Cyber Security Services
Australian Cyber Security Centre, Department of Defence

Kathryn Green
CISO
Australian Radiation Protection and Nuclear Safety Agency

Neil Campbell
Vice President Sales, Asia Pacific
Rapid7

Kelsey Nelson
Product Marketing Solutions
Okta

Joe Cozzupoli
Principal Security Domain Specialist
Citrix Systems Asia Pacific

Reasons to Attend

Learn how to uplift the resilience of CI through local and international best practice approaches

Gain insight into the latest technologies and methodologies transforming CI

Join us for public sector specific insights, live panels and interactive Q&As

Virtual Cyber Security for Critical Infrastructure

Uplifting the Cyber Security Resilience of Critical Infrastructure

Online → Wednesday, 31 March 2021 | 09:00am AEDT

Agenda

09:00am	Public Sector Network Welcome
09:10am	Chair Opening Robert Di Pietro, Partner Cyber Security & Digital Trust, PwC
09:20am	Government Keynote: Cyber Issues in a Regional Infrastructure <ul style="list-style-type: none"> Understanding the current cyber environment for critical infrastructure Threat identification, regulation and best practice for more robust infrastructure protection Building on your existing capabilities and remaining one step ahead Tobias Feakin , Ambassador for Cyber Affairs and Critical Technology, Department of Foreign Affairs and Trade
09:35am	Event Partner Session: The Rise of the Hybrid Workforce Requires the Zero Trust Security Model Joe Cozzupoli , Principal Security Domain Specialist, Citrix Systems Asia Pacific
09:50am	Government Keynote: Creating and Executing a Robust Cyber Strategy for More Resilient Critical Infrastructure <ul style="list-style-type: none"> Understanding CI vulnerabilities and mitigating them through risk detection strategies Creating the most effective and robust security strategy to improve infrastructure resilience Building resiliency in cyber security through proactive planning Karl Hanmore , First Assistant Director-General Cyber Security Services, Australian Cyber Security Centre, Department of Defence
10:05pm	Event Partner Session: The Next Phase of Distributed Work Kelsey Nelson , Product Marketing Solutions, Okta
10:20pm	Government Keynote: Managing risk in the IoT World <ul style="list-style-type: none"> Understanding vulnerabilities and mitigating them through risk detection strategies Building resiliency in cyber security through proactive planning Stewart Hayes , Cyber Security Director, Department of Environment, Land, Water and Planning

10:35pm	Refreshment Break
10:40pm	Live Panel Discussion: Improving Cyber Security Awareness and Culture <ul style="list-style-type: none"> Embedding a culture of awareness to improve critical infrastructure security Increasing cyber protection measures and ensuring they are maintained Increasing threat protection and ensuring all staff adhere to best practice guidelines Vijay Narayan , CISO, Environment Protection Authority Victoria Tony Kulpa , Executive Director, performance, Department of Transport & Main Roads QLD Kathryn Green , CISO, Australian Radiation Protection and Nuclear Safety Agency Neil Campbell , Vice President Sales, Asia Pacific and Japan, Rapid7
11:00pm	End of Conference
