

# Virtual Public Sector Data Governance & Privacy

Protecting Data and Mitigating Risk with Comprehensive Data Governance Frameworks

Online → Wednesday, 02 June 2021 | 11:00am AEST

[CLICK HERE TO REGISTER](#)

## Agenda Overview

Today, the explosion of data—and the insights revealed—are proving highly strategically valuable to organisations at all levels, with data insights leveraged for informed decision making; meaning that data must be secure, while still accessible.

Greater insights and information accessibility however present challenges in storage, management, and adherence to regulatory requirements. Developing an effective data governance program is essential to harnessing data's potential while ensuring information security.

To help you on this journey we've put together the Data Governance & Privacy virtual event. The event has been carefully curated to help you build a data-driven organisational culture that gleans strategic insight from data while mitigating risk and maintaining security.

## Who Attends?

### Chiefs/Directors/Heads of:

Data & Analytics | Data Ethics | Data Privacy | Information Management | Information Security | Data Acquisition | Data Governance | Data Stewards

## Speakers

### Glenn Archer

Partner - Government (Federal, NSW & ACT)

Public Sector Consulting

### Ceri Sanderson

Director of Access, Agreements & Health Data Provisioning & Assistant Chief Data Steward,

Ministry of Health, British Columbia

### John Kalokerinos
