Department of National Defence Journey to the Cloud

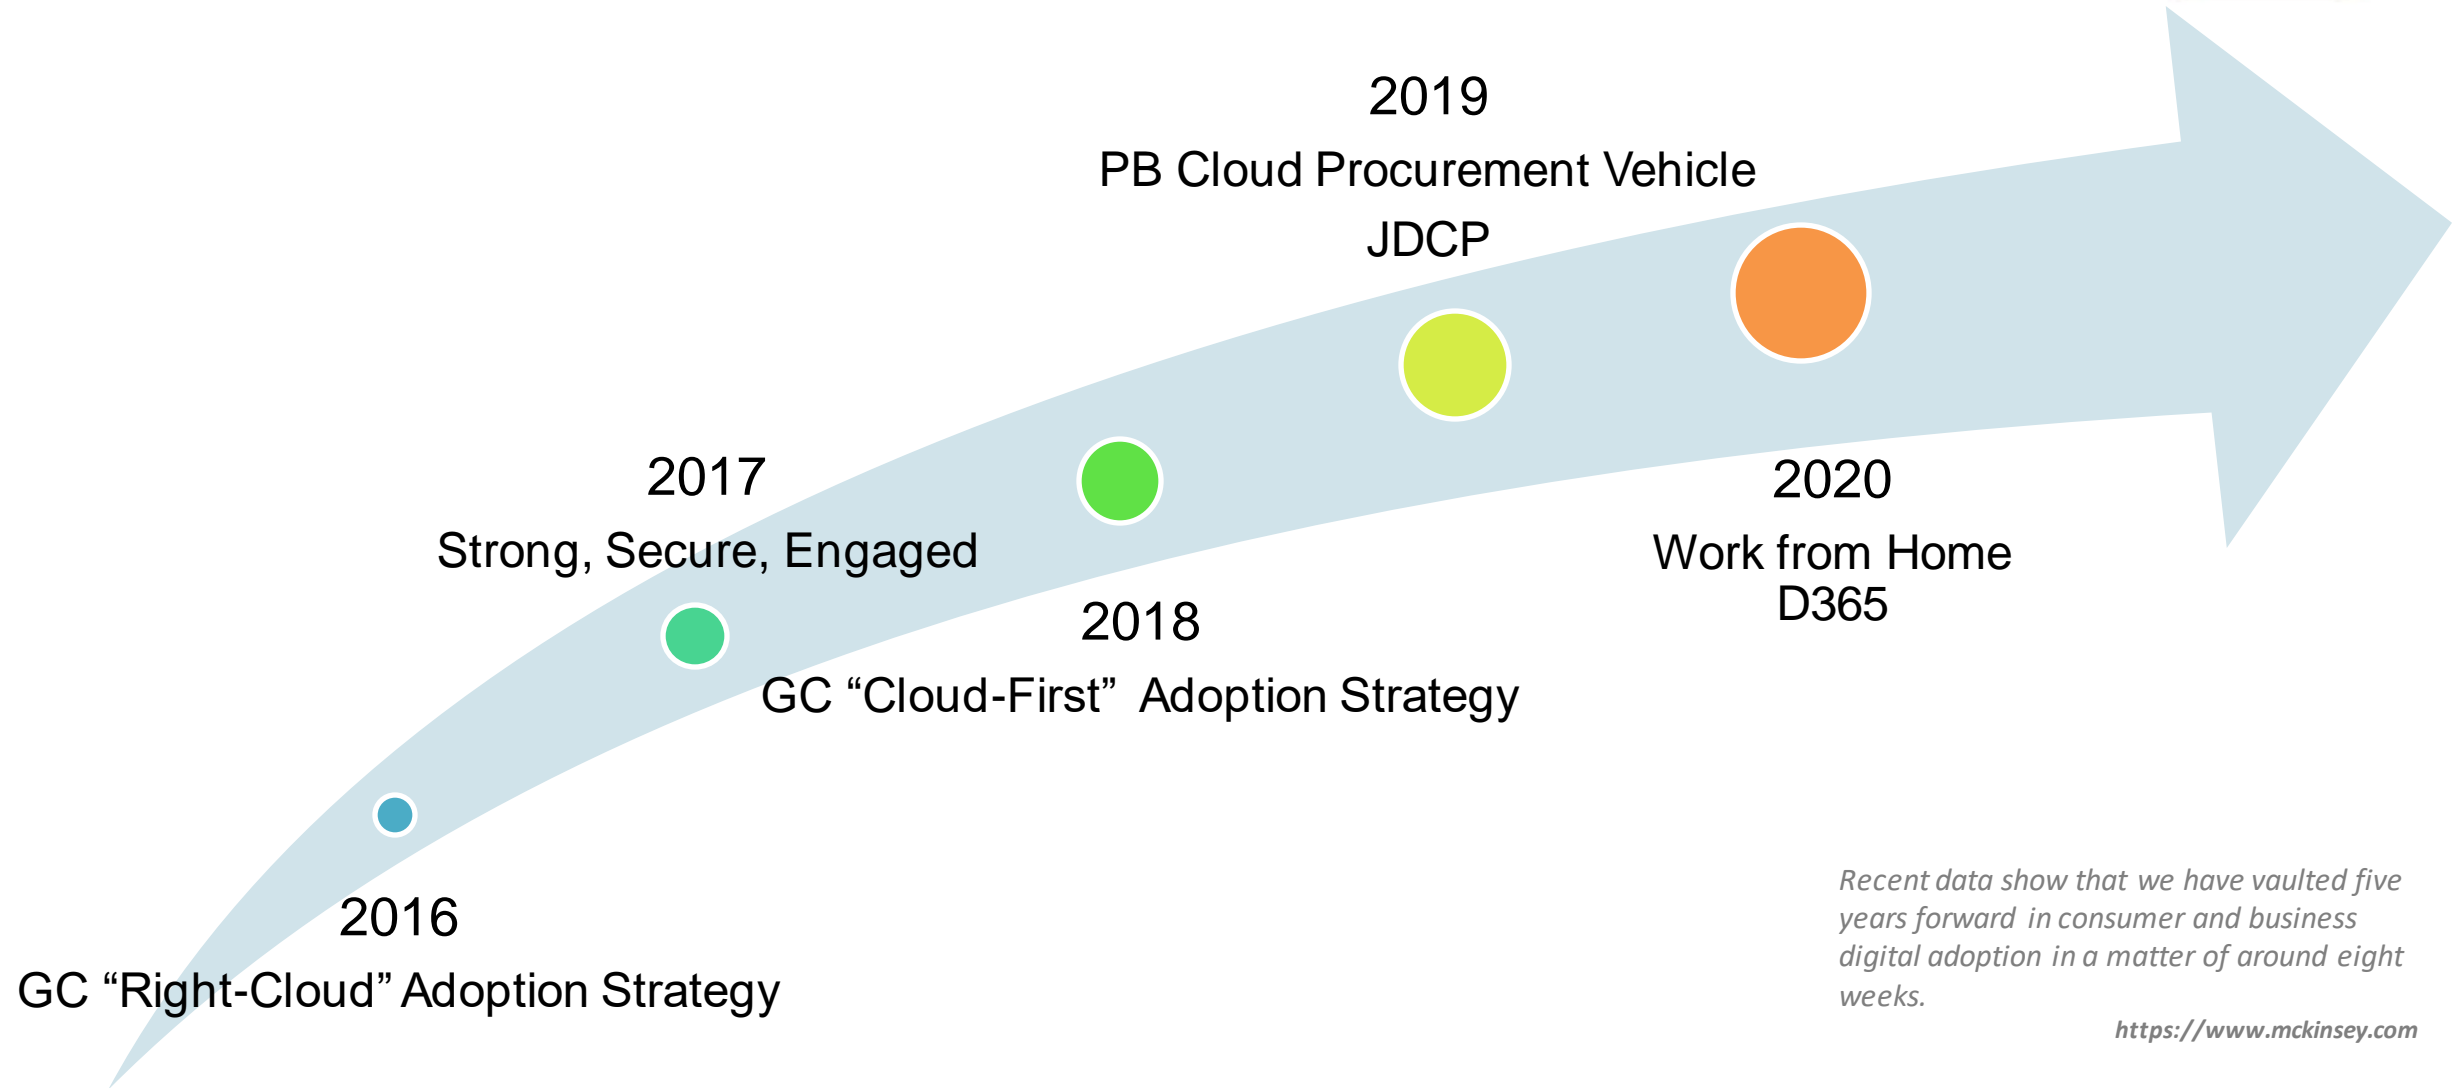

Caroline Cameron

Director, Joint Defence Cloud Program

Department of National Defence

Canada

DND Cloud timeline

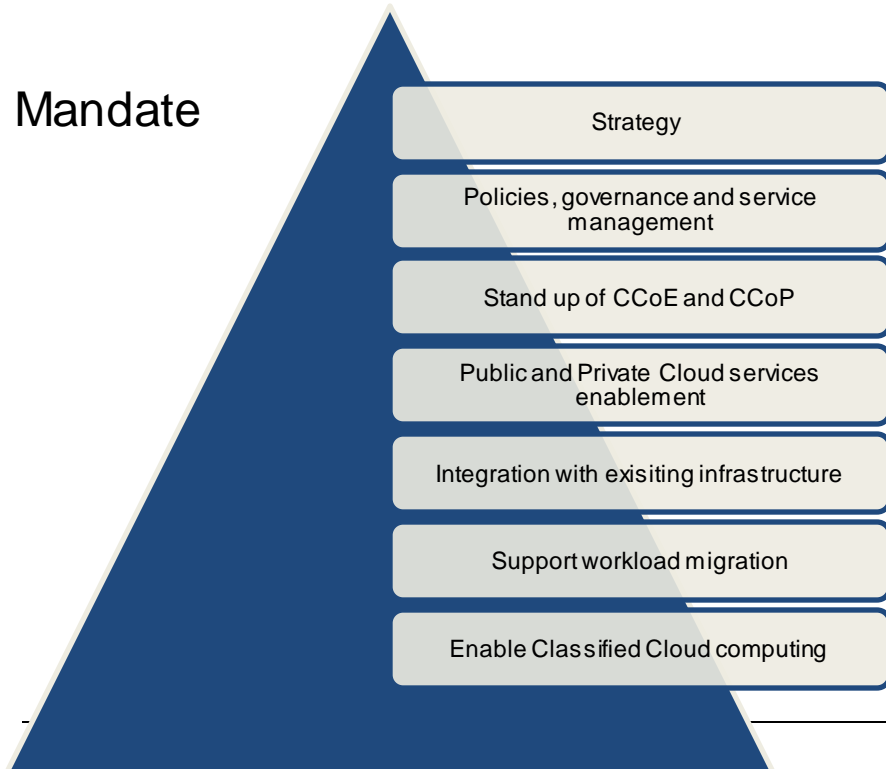

Recent data show that we have vaulted five years forward in consumer and business digital adoption in a matter of around eight weeks.

Mandate and expected outcomes of Cloud adoption

The Joint Defence Cloud Programme(JDCP) is mandated to provide **centralized leadership, governance,** and **oversight** to the DND/CAF to support DND-wide adoption of cloud services capabilities in both the designated and classified domains – leading activities and addressing challenges in both organizational and technical transformation.

Vision and Outcomes

People
