## Local Government and Municipalities Transforming to Meet the Demands of Tomorrow

**Local governments are facing multiple new challenges as they adopt and respond to the new post-pandemic reality, as the needs of citizens and stakeholders change in communities across Canada. As the level of government closest to people's daily lives, local governments understand the issues that matter to Canadians — and they have the expertise to deliver results.**

**The Government of Canada is investing over \$17.7 million in municipalities through the COVID-19 Resilience Infrastructure Stream of the Investing in Canada plan. Provincial governments have also increased funding to help deal with fiscal impacts and to ensure the continuation of vital services amid changing constituent demands.**

As the closest tier of government to citizens, cities and municipalities are facing a period of significant disruption as they deal with a range of issues including population growth and change, budget constraints, economic recovery and rising demands and expectations on services.

To become future ready, digital transformation for local government is crucial — to embrace new technology, streamline processes, upskill the workforce and increase operational efficiency and resilience.

Get involved in our Local Government Community events to connect directly with decision makers and influencers and help them overcome their challenges using innovative solutions. By showcasing your solutions as a partner at Public Sector Network events you can:

- Get your offering in front of key executives, 75% of which are either decision makers or direct influencers
- Promote your brand as an industry leader and forge lasting relationships
- Understand key challenges and obstacles of your potential clients to help refine your approach

## How We Help

**Digital events provide a unique platform for public servants — across different tiers, provinces, agencies and departments — to meet and discuss innovative case studies and solutions.**

They also provide a fantastic opportunity for vendors to identify, engage and educate a diverse group of buyers that are typically difficult to reach.

Our audience profile is typically made up of mid-level managers to senior executives who are responsible for major projects, supplier selection and spend.

Public Sector Network runs four events per quarter – ensuring a regular touchpoint in the market.

**I love when presenters speak of their challenges, mistakes, and how they would have done something differently, especially when they can use one or two projects as examples.**
